• General rules of foreign currency transfers

| | |
|--|---|
| Abbreviations: | |
| fcys - foreign currency sell | fcyb - foreign currency buy |
| fxs - payment services foreign exchange sell | fxb - payment services foreign exchange buy |
| cfxs - commercial foreign exchange sell | cfxb - commercial foreign exchange buy |

We open and keep accounts in the following currencies: EUR, USD and CHF.

MagNet Bank credits the transferred amount to the customer's account in the currencies in which accounts are held. If the transferred amount is in any other currency, the transferred amount is converted by the intermediary bank and credited to the customer's forint account. In the absence of a forint account, the Bank returns the transferred amount to the originator.

As long as the transfer order does not include the currency of the beneficiary's account or the reference is not clear, we credit the transferred amount to an account which is held in the currency in which the amount is transferred. If the customer does not hold such an account, the amount is transferred to his/her forint account, failing that, to an account held in another currency.

Should the currency of the transferred amount differ from the currency of the beneficiary's account, the amount is converted at the current foreign exchange rate applied in the case of payment services.

If two different currency types (other than forint) are in the transaction, it is always the initial currency that is converted to forint by MagNet Bank and then this forint amount is converted to the required currency. We reserve the right to choose the correspondent bank.

MagNet Bank accepts transfer orders only in those currencies that are listed by the Bank for the purpose of providing payment services.

We charge the fees and commissions charged by other payment service providers and reserve the right to debit and collect, even at a later date, the costs incurred in the case of items managed by a domestic or a foreign financial institution. Foreign costs are those that arise at the beneficiary's bank or at the bank forwarding the foreign currency transfer.

Commissions are charged in the currency in which the account is held. In the case of a conversion into a currency in which the given account is held, MagNet Bank applies the payment services foreign exchange mid-rate in effect on the day when the commission is debited.

Special rate

In the case of transfers above EUR 40,000 or an equivalent foreign currency amount calculated at the payment services exchange rate, clients may request the application of a special interest rate between 9h and 15h on banking days. You can apply for a special rate if you have a Framework Contract concluded to this effect and have sufficient funds in your foreign currency account.

As regards transfer orders to an EEA Member State and to a non-EEA Member State which uses IBAN, customers must provide the beneficiary's bank account number in the correct IBAN format. In the absence of this number, the beneficiary's bank or the intermediary bank may charge a correction fee or reject the transfer order. The IBAN formats used by countries are listed in the annex.

Cost sharing rules

Costs may be shared in the following ways:

BEN means that all costs are paid by the Beneficiary
SHA means that the the Originator pays the costs of the initiation of the transfer and the Beneficiary pays the costs of crediting
OUR means that all costs are paid by the Originator

In the case of transfers within the EEA, the paying party bears the costs of the bank initiating the transaction, while the beneficiary pays all other charges that fall out of the scope of the initiating bank as well as costs of other banks participating in the execution of the payment transaction (SHA – cost sharing). For payment orders within the EEA, the Bank applies the SHA payment instruction, irrespective of what was indicated in your instruction.

We kindly ask you to provide your partners with your IBAN account number specified in the Bank Account Contract or bank statement and MagNet Bank's SWIFT Code, which is as follows: HBWEHUHB.

The Bank issues bankcards to forint based bank accounts. Several types of bankcards can be requested to one bank account. In the case of one specific type of bankcard, bankcards can be requested to the name of several Cardholders. In the case of one specific bank account, the Cardholder can request only one bankcard within that bankcard type.

The criteria of applying for a bankcard

- forint based personal bank account or the opening of such account
- identification of the customer applying for the bankcard
- valid Bankcard Contract concluded between the Bank and the Account Holder and signed by the both parties (if the Cardholder is a different person, his/her signature is also needed)
- in the case of a principal card, the Cardholder must be at least 18 years old (principal cards are issued only for the Account Holder)
- in the case of a supplementary card, the Cardholder must be at least 14 years old (for minors with limited capacity and legal incompetency their legal representative can apply for a supplementary card)

• TeleBank

The maximum amount of TeleBank transactions is HUF 10 000 000.

• Submission and receipt of payment orders

Customers may submit their paper-based payment orders and payment instructions initiated via TeleBank during the opening hours of the branches. These payment instructions are accepted by the Bank between the opening and closing time of each working day. Payment instructions can be submitted 0-24 hours a day via the NetBank system. These payment instructions are accepted by the Bank between the opening and closing time of each working day.

Cash deposit and cash withdrawal: each working day during office hours.

Any instruction arriving to MagNet Bank after the above closing times will be handled as if submitted on the following working day. If the payment instruction includes an execution day that falls one day before the current day, the Bank executes the transaction on the current day, but on the first working day following the current day at the latest.

The closing time of a working day is the time until the Bank accepts payment instructions by reference to certain criteria (in particular, type of foreign exchange, place and manner of submission of payment order and method of payment).

• Execution of payment orders

Domestic forint payment orders

In the case of payment orders where both the originator's and the beneficiary's accounts are held with MagNet Bank, the Bank debits the originator's account and credits the beneficiary's account on the same day. If the account to be credited is held with another domestic bank, MagNet Bank forwards the funds to the bank where the beneficiary's account is held the same day when the originator's account is debited.

Electronic payment instructions received between the starting and closing time of a working day are executed the same day within maximum four hours following its receipt by the Bank.

MagNet Bank credits the funds arriving from a domestic bank to the beneficiary's account on the day when it comes to the Bank's knowledge that the funds have been credited to its account. The holder of the credited account can access the funds on the same day.

Foreign exchange payment orders

In the case of payment orders where both the originator's and the beneficiary's accounts are held with MagNet Bank and there is no need to convert the transferred funds, the Bank debits the originator's account and credits the beneficiary's account on the same day. If the funds need to be converted within the Bank, the transaction may take another day. In the case of a foreign exchange transfer, the Bank credits the transferred amount to the beneficiary's account with the value date when the funds are credited to the Bank's account.

The Bank transfers foreign exchange funds to another bank with a value date falling 2 days - in case of SEPA transfers 1 day - after the settlement date. The day of the completion of the transaction is determined by taking into account public and bank holidays in Hungary and in the countries participating in the transaction.

When transferring funds in forint from a foreign currency account, the above value date calculated as settlement day + 2 days is calculated by taking the day when the Bank transfers the forint amount and not the day when it is credited to the beneficiary's account.

MagNet Bank Zrt.

It is essential that you provide your foreign partner with your IBAN number and ask your European partner to make available his IBAN number.

What is IBAN?

For the purpose of the standardization of transactions executed by a single payment instrument in the European Union, IBAN (International Bank Account Number) has been introduced step by step since 1999. Hungary joined the group of countries using IBAN on 1 January, 2003 and since then Hungarian financial institutions has had to introduce and check IBAN bank accounts. Pursuant to the provisions of the European Payment Council, since 1 January, 2007 the IBAN format bank account number of the beneficiary has had to be provided for transfers between members of the European Economic Area and the European Union as well as Norway, Iceland and Liechtenstein.

When do I need to use IBAN?

If you wish to transfer funds in foreign currency to a country using IBAN, you will need to provide your bank account number in IBAN format. This is particularly important in the case of funds to be transferred to a Member State of the European Economic Area where the use of IBAN is obligatory. (IBAN must be used in the case of domestic foreign currency transfers, too; e.g. transfer of funds in euro within the country.) Transfer of foreign currency to a country when IBAN is not used happens by using the usual bank account format. As regards domestic forint transfers, the 24 and 16-digit GIRO account numbers are used and there is no need to use IBAN.

What happens if I don't use IBAN?

If you fail to provide the beneficiary's IBAN number or you don't give the correct number in your instruction to transfer foreign currency to a European country, it may happen that your transfer order will be rejected by the correspondent bank or extra fees may be charged if it needs to be processed manually. We will charge these costs in the future in addition to the usual fees and commissions of foreign currency transfers. (These fees differ in each bank, but may be about EUR 5-20.)

What is my IBAN?

It is also important that you also notify your partners of your IBAN. If you don't know your IBAN, you can find it in the letterhead of any of your bank statements. According to Hungarian standards, IBAN in Hungary is made up of 28 alphanumeric characters of which:

- characters 1 and 2 are the country code
- characters 3 and 4 are control numbers and
- characters 5-28 make up the bank account number.

For example: HU45 1234 4567 7890 4321 8765 6789

What European countries use IBAN?
